REST CHURCH MINISTRIES

TOILET BUILDING PROJECT

Addressing Hygiene and Sanitation Challenges in Island Communities

A community transformation initiative

REST CHURCH MINISTRIES

Why this project matters

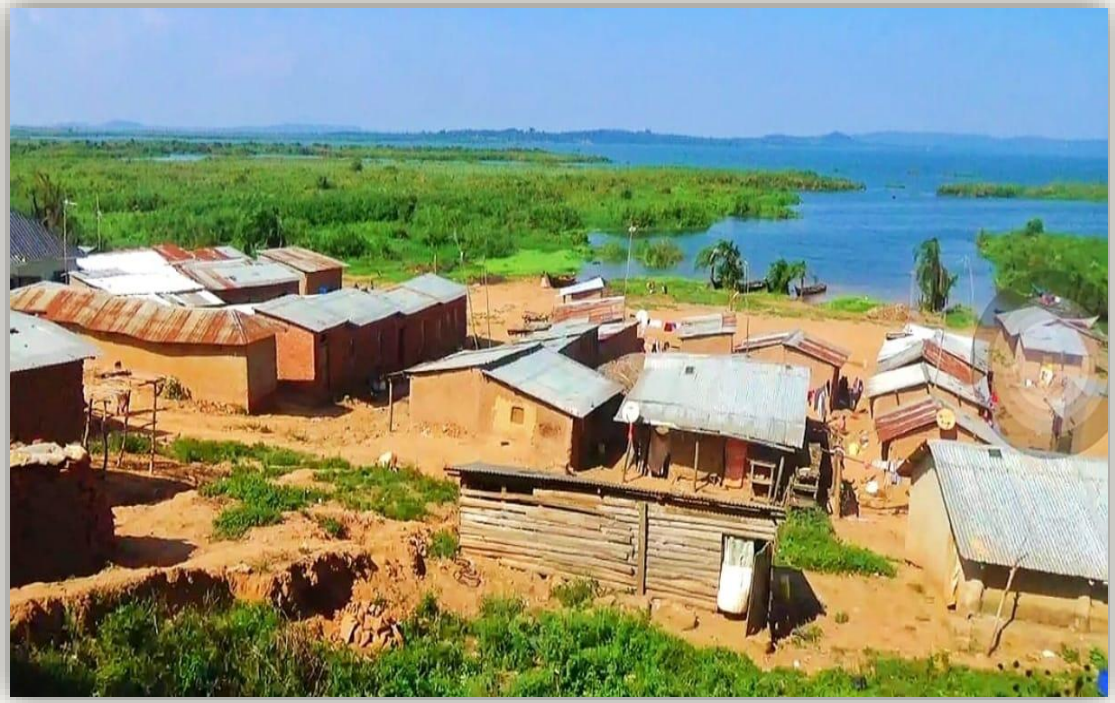

A personal commitment shaped by lived experience

Growing up on the islands

The vision bearer of Rest Church Ministries was born and raised in island communities, where his parents spent their lives as fishmongers.

As a child, he witnessed families without proper sanitation facilities. Some people dug holes in bushes or used open spaces near their homes to dispose of human waste.

These conditions affected hygiene, privacy and dignity, while increasing exposure to sanitation-related diseases.

A commitment born from experience

Turning a childhood reality into a lifelong mission

> **I made a personal commitment to help transform sanitation in island communities before the end of my life.**
>
> *— Vision bearer, Rest Church Ministries*

What the project will achieve

A practical response to a persistent community need

OUR GOAL

To improve hygiene, sanitation, privacy and dignity among island communities through the construction of accessible public toilet facilities.

- **HYGIENE**
  Promote cleaner surroundings
- **SAFETY**
  Reduce exposure to health risks
- **PRIVACY**
  Provide a safe, private facility
- **DIGNITY**
  Respect children and adults

Working together to make it happen

Rest Church Ministries welcomes shared commitment and practical support

Rest Church Ministries is committed to constructing public toilets in island communities to address the persistent sanitation challenges affecting residents.

As part of the Body of Christ, the church mobilizes financial support from its members, friends from other churches, and potential partners who share this vision. We welcome individuals, churches, and organizations willing to support the project financially or through the provision of construction materials.

What the project needs

Estimated construction materials and services • USD

CONSTRUCTION MATERIALS & SERVICES	COST
Iron sheets	$1,000
Bricks	$700
Nails	$30
Iron bars	$100
Transportation of materials	$300
Cement	$1,000
Labour	$1,000
Sand	$500

TOTAL ESTIMATED PROJECT COST

$4,630

USD

Every contribution helps move the project forward.

A healthier, more dignified community

The project is designed to make a practical difference in everyday life

01	**Improved hygiene**	Cleaner and safer sanitation conditions.
02	**Reduced health risks**	Less exposure to sanitation-related dangers.
03	**Accessible facilities**	Safe public toilet facilities for residents.
04	**Privacy and dignity**	Greater privacy and dignity for children and adults.
05	**Sustainable communities**	A contribution to healthier, more sustainable communities.

Transforming communities through practical love

Rest Church Ministries believes that transforming communities goes beyond preaching the Gospel. It also means responding to people's practical needs.

This project is one way we demonstrate the love of God through meaningful community service.
